

STRENGTHEN YOUR PAYROLL WITH ZELLIS MANAGED PAY SERVICES

Reduce risk. Increase accuracy. Protect compliance.

ZELLIS EXPERT MANAGED PAY SERVICES

Payroll is one of the clearest indicators of how well an organisation runs. When it runs smoothly, it builds trust with employees, leaders, regulators and the board. When it doesn't, disruption and risk quickly spread across HR, Finance and Payroll.

Even with a strong Zellis platform, the operational load of payroll often stays in-house. Processing demands, compliance pressure and continuity risks still rely on internal capacity and specialist expertise.

Zellis Managed Pay Services lifts the day-to-day burden. Your payroll continues to run on your Zellis platform but is delivered and continuously supported by Zellis experts to enable accuracy, security and on-time completion, every cycle.

For organisations already using the Zellis platform, Managed Pay enhances accuracy, compliance and continuity without changing systems or disrupting established processes.

WHY ORGANISATIONS USING ZELLIS ADOPT MANAGED PAY SERVICES

If you recognise any of these challenges, Managed Pay Services is designed for you:

- Recurring errors or corrections that impact employee trust
- Repeated payroll reruns disrupting normal operations
- Rising audit demands and compliance expectations
- Limited internal capacity or reliance on a few key individuals
- Unpredictable manual work and operational noise

REMOVE THE OPERATIONAL BURDEN OF PAYROLL FROM YOUR ORGANISATION

Managing payroll internally demands specialist knowledge, constant oversight and operational resilience. Managed Pay Services transfers day-to-day processing responsibility to Zellis, reducing operational pressure and freeing your teams to focus on strategic priorities.

IMPROVE PAYROLL ACCURACY AND REDUCE COSTLY ERRORS

Errors, re-runs and manual corrections create disruption and undermine confidence. Zellis experts deliver consistent payroll processing and stronger controls, reducing errors, re-runs, adjustments and internal escalation.

STRENGTHEN COMPLIANCE AND REDUCE AUDIT AND REGULATORY EXPOSURE

Payroll requirements continue to evolve. Managed Pay Services supports compliance and governance throughout the cycle, improving audit readiness, control and confidence.

REDUCE PAYROLL COST TO SERVE AND IMPROVE EFFICIENCY

Internal payroll operations often carry hidden costs through recruitment, retention, training and rework. Managed Pay Services improves operational efficiency and provides a more predictable, controlled cost model.

REMOVE DEPENDENCY ON SCARCE PAYROLL EXPERTISE

Payroll specialists can be difficult to recruit and retain. Managed Pay Services reduces reliance on internal specialist capability while maintaining continuity, expertise and stability.

ENABLE YOUR TEAMS TO FOCUS ON STRATEGY, NOT ADMINISTRATION

HR and finance leaders should be focused on transformation, workforce strategy and business performance. Managed Pay Services reduces administrative burden and gives your teams time back for higher value work.

PAYROLL RESILIENCE WITH YOUR EXISTING ZELLIS PLATFORM

Managed Pay Services operates directly within your existing Zellis platform, strengthening payroll continuity, control and compliance with the platform you already rely on.

This provides:

- Strengthened accuracy and reliability
- Reduced internal burden and manual processing risk
- Enhanced compliance, governance and audit readiness
- Improved operational efficiency and cost control
- More time for HR and Finance to focus on strategic priorities

FROM OPERATIONAL BURDEN TO OPERATIONAL CONFIDENCE

Organisations adopt Zellis Managed Pay Services to reduce payroll risk, strengthen accuracy and compliance, and protect continuity. Payroll becomes a reliable, expertly managed service that strengthens employee confidence and supports business performance.

Optional Add-On: Audit-Ready Service

Enhanced documentation, evidence packs and control checks designed to support internal and external audit requirements.
